

US, EU, or Canada API

Last Modified on 09/30/2019 3:25 pm EDT |

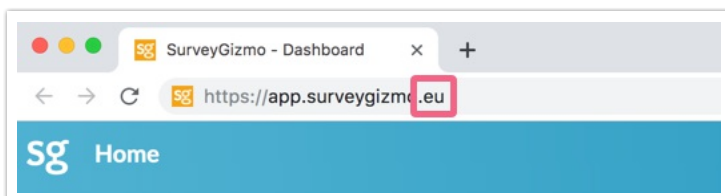

All of our API resources will use `restapi.surveygizmo.com` in example calls, however, if you are using an EU or Canadian account, your calls must use either the `restapi.surveygizmo.eu` or `restapica.surveygizmo.com` domains.

Not sure if your account is US, EU, or Canada?

Check the URL when you are logged in to the application. If you see `app.surveygizmo.com` your account is a US account. *Note that US accounts use the EST/EDT Timezone.*

If you see `app.surveygizmo.eu` your account is an EU account. *Note that EU accounts use the GMT Timezone.*

If you see `appca.surveygizmo.com`, your account is a Canada account. *Note that CA accounts use the GMT Timezone.*
